SOUTHEASTERN SEAPRODUCTS INC.- MELBOURNE  
1500 MAPLE AVENUE  
MELBOURNE, FL 32935

Dear MARK MAYNARD:

Enclosed please find your facility's new Shellfish Processing Certification License. The license is valid until June 30, 2024. Please post your new license in a conspicuous location on the firm's premises.

The facility has passed inspection and is in substantial compliance with the Comprehensive Shellfish Control Code, Chapter 5L-1 Florida Administrative Code (F.A.C.). We are providing the Shellfish Processing Certification License, however, if the facility ships shellfish products across state lines, the facility must be listed in the Interstate Certified Shellfish Shippers List (ICSSL). We will send a copy of the firm's certification to the U.S. Food and Drug Administration so that the facility will be listed in the next issue of the ICSSL. The U.S. Food and Drug Administration updates the list on a monthly basis.

If the facility plans to ship shellfish in interstate commerce prior to being listed in the ICSSL, please notify us. This will allow us to notify the receiving state's shellfish regulatory agency of the firm's certification. Failure to notify the receiving state of the current certification could result in the facility's shellfish being seized.

If we can provide additional assistance please let us know.

Sincerely,

Portia Sapp, Director  
Division of Aquaculture
